PROFESSIONAL PROFILE

Part time security surveillance operator at Zedcor while 2 years of continuous learning in computer programming and the software development process.

LABS

Access Control Techniques

- Conducted research on the effectiveness of ACLs in web application security, analyzing DAC and RBAC systems for user permission management and data protection.

Oracle Virtualbox

- Utilized Oracle virtualbox for Windows/Linux Command-Line Interface to navigate directories, view system variables, and manipulate files.

Cisco Packet Tracer

- Simulated a simple network in logical mode, configuring end devices, and conducting connectivity verification procedures

Secure Student Registration Systems in Java

- Integrated the Proxy design pattern to regulate access to registration functionality, enforcing GPA eligibility checks.

Enhanced Error Handling and Data Integrity in PL/SQL for Accounting System

- Implemented error checking and exception handling functionalities while utilizing the systems ERD to ensure the program's robustness and reliability.
- Thoroughly tested the coded solution using provided datasets and additional test data to ensure its functionality and accuracy.

JOB EXPERIENCE

Part-time, Security Surveillance Operator, Zedcor Security, Calgary, AB, March 2024-present

- Exhibited exceptional judgment and analytical skills to accurately evaluate the nature and urgency of approximately 10,000 security alerts per shift, enabling swift and informed decision-making processes.
- Utilized Genetec surveillance software to successfully identify and thwart theft activities, preventing the loss of construction materials and safeguarding valuable assets.
- Identified phishing threats and relayed information, facilitating the creation of security bulletins to enhance organizational cybersecurity awareness.

Seasonal, Line Cook, Joey's Eau Claire, Calgary, AB, April 2022 - August 2022

- Ensure customer satisfaction and inclusivity by meticulously handling modifications and accommodating allergies.

Part-Time, Sales Associate, H&M Chinook, Calgary, AB, May 2021 - April 2022

- Utilizing emotional intelligence when enforcing covid protocols to emotionally charged customers
- Reduce shrinkage through vigilant returns oversight, handling 10+ items per shift post-holiday

Full-Time, Keyholder, Miniso Crossiron, September 2018 - August 2020

- Handling accurate and honest cash balancing reports on Excel regarding 3 point of sale operating systems.
- Thoroughly safeguarding company assets through CCTV monitoring, patrols in sensitive areas, alarm management, safety-deposit box use, and securing entry points at closing.

VOLUNTEERING

Content Researcher , Activism Through Art & Technology, December 2023 - March 2024

- Employed Trello as the central platform for task allocation, progress tracking, and feedback sharing among team members. This strategy enhanced cross-functional collaboration and fostered a dynamic, productive working environment.

SKILLS: (Word, Excel, Outlook, Teams) | Basic Networking knowledge | Windows/Linux Operating System | Software Security | | Version Control | Javascript | HTML | CSS | C# | Java | Python | SQL/PLSQL
